

別紙 2 ALL ASIAN DXコンテスト規約改定についての意見 (DX)

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?	Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
4E9VVN	Plan 6 just give a certificate on a PDF files for those who join the contest for free.	it is our hobby but its also give us enjoyment when we join a contest and much more to see a certificate for free.	just give a certificate on a PDF files for free and it will make happy to a hamradio operator.
4F1EBD	Plan 5 CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Unity like other contest , the Phone , CW or Mixed Category in 48hrs with Power Category	All participants should have online certificate while the top performer had a plaque to received
4G1OAL	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	remain as it is...	ham experiance and dx condition
4K6FO	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	that's ok for me	thing more prizes make good activity
4X1ST	Plan 5 CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	We need a major mixed mode contest	None. I love AADX anyway
4X1VF	Plan 6 Combine the CW and The Phone contest. To one contest.	X	
4X6FB	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I only operate CW and can only operate on Sunday, never Saturday so 48 hours is important to me.	
4Z4KX	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	On low bands n Asia we don't have conditions in day time.24 hours is not enough	
5B4AIF	Plan 3 The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	48 hours for most single operators is too tiring	I would like to see 12 24 36 category which will help new contesters
9A1AA	Plan 2 The date will remain the same, but the period will be reduced to 24 hours.	48 hours is to much time this number of participants	
9A2EU	Plan 2 The date will remain the same, but the period will be reduced to 24 hours.	48 hours is too long	More activity from Asia
9A2NO	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Propagation are different during weekend	All is OK. I don't like any changes in contests I like to participate, 9A2NO, 9A1CFR, 9A7T
9A9O	Plan 2 The date will remain the same, but the period will be reduced to 24 hours.	To many op have more than 60 year	
9M2SYG	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	no problem about date before	please create YL categories
9M6RDY	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	the period contest times just nice	No change please
9M8HAZ	Plan 5 CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Some regions might have issues with propagations, so the good practice is Mixed mode CW & SSB	SSB when propagation/band is good, then switch to CW when propagation/band is out.
9V1DE	Plan 1 No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Good contest	Nil

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
9V1PL	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	It is perfect, no changes required.	More awards for Rookies, we will NEVER be able to meet the standards of elmers. But a category that can award us might be encouraging.
9V1YC	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	48 hours is way too long for most people of our age now	Certificates should list rank within your continent - not just country
9W8ZZK	Plan 6	After cw week the following week phone mode	Thats the propagation in good condition	Work more onto Asia
AA1K	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	X	X
AD5A	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	From W5 maximum band openings ~30 hours to Asia.	N/a
AE1T	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	Human nature	more good signals? better propagation?
AF5J	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	The contest needs to be as long as it is for propagation - but having 32 hours to work with is a good change.	
AP5ARS	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	As its give more comfortable time to Hams to operate in every region part of the World.(Ample Time To Operate and Enjoy)	Only DX Contest to Represent Asia Having Large No of Participants World Wide .
BA4AEO	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	keep rule	no
BA4TB	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	the participants are good for 24 hour period.	
BD1IJ	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	The number of participants is not enough to support such a long game.	
BD3CT	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Since there are few participants, why not reduce the time of the game and give up valuable frequency resources.	Participation from other continents is not high
BI4SDT	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I like AA	
BU2EP	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	Being A single operator, I think 36 hours is more available.	
BU2EV	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	The length of time allows radio-loving friendly stations to choose when to join the call	It's very good contest
BV3FG	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	48 hour is a good choice for mixed mode contest.	no idea
CE4JZO	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	is perfect the month september, very good propagation for Sud America	
DF7CB	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	AA SSB is parallel to IARU R1 SSB Fieldday with incompatible exchanges, moving would resolve the conflict	Better HF conds :)

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
DG80BN	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I simply don't see a reason / need for changes.	
DJ3RA	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	During most other contests the same	
DJ4MZ	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Still separate classes for CW and SSB possible, free up SSB part as it also collides with Fieldday Contest	
DJ5KW	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Avoid conflict with R1 SSB fieldday	
DJ6DO	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	24 hours is a good length of a contest, see some other contest in the world	no ideas at the moment, I try to participate in the phone part if it is possible
DL5AXX	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	muc more fun with just a bit less contacts than in 48 hours	
DL5YM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	tradiional	why deleted 00 for YLs ?
DM3F	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Must be parallel with SSB FD	
DM6EE	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	I think 24 hours are enough. The traffic is than in 24 hours and it is more reasonable to work stations.	reducing to 24 hours
DS1TUW	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	More QSOs can be made with mixed-mode contests, also more participants can be drawn. Also can be a preparation stage for IARU HF.	Hold the contest in a period with better propagation, and provide the contest record search features (like CQ contests).
DU1/NF00	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	It allows me to switch between modes all in the same weekend	Treat the contest as one contest with each mode counting as a QSO with a station per band As with many contests maybe a multiplier of 2 for digi/cw contacts
DU1CX	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I like it the way it is. I can focus on CW or phone in one contest. I also like the idea of having to look forward to two events instead of just one.	Maybe a field station category?
DU7JAY	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	i dont have any problem with the present schedule	with more Categories and Award Certificates will mean more hams will be interested to participate
DV7MIS	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I had so much fun in joining the aa contest. and 24hrs is not enough because of work skedule	please include 6meters ban

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
E20XMG	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	easy in memory	cw slow speed 20 wpm
E21EIC	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Because the no. of operators has reduced, and new HAM generation are not as interested.	Increasing the range of awards available in different categories e.g. plaques
E29AHU	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Good time for weekend	Participate in satellite mode.
E70Y	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I am "small gun", LP every QSO is challenge, i just want to participate for some time and have some fun	
E78CB	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	If I can not contact particular station, I might do it tomorrow.	
EA1FHQ	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Its more easy to participate for more peoples with family, works or occupations in weekend	
EA4RR	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	because it would increase participation by not having to enter two different dates.	Increase the score for low-power single operators in phonia.
EB5A	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	No propagation night time.	Add interesting prizes and lottery.
EW1AFM	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	CW and Phone must be at separate dates, as it is now. Operate time 36h from 48h is a good idea.	A good idea will be a participation certificates for self-printing, not only for tops and 1st places. But I like AA DX Contest anywhere.
EW1FM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	When Contest period is 48 hours it is easy to me to find time with better propagations, my working conditions is poor.	I like AA DX Contest anywhere. A good idea will be creation of participation certificates for participants, not only for tops and 1st places.
F4JTH	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	48 h when you only one operator is difficult	nothing , this contest is very exciting
F4WEJ	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	48 hours is too long and there are no enough stations to work, also one common date for both cy/ssb will do contest more attractive for everyone	rule change as described before
F5PBL	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Early September is oftenly busy with real life constraints. Reducing SO to 36 hours is fair enough for real SO activity. Side note: I am not interested in the phone part of the contest.	Me having a better antenna but this is out of scope for you! Cheers.
F5TYT	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	low power transceiver and wire antenna	long time for contest
FY5KE	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Intl contests must be 48 hours long. This is serious stuff.	

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
G3NKC	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	AA Contest is difficult from Western EU, considering we can work Asia only	reduction in duration
G3RLE	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	The longer time offers 2 opportunities to find the best conditions. Probably not enough activity for a separate SSB contest.	
G3YMC	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	48 hours for this contest is too long, no need for two weekends	QRP ops in Europe struggle to QSO JA stations, perhaps widen range of what we can work
G4IRN	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	From western Europe, contacts with far Asia are difficult. 48 hours is too long with such a relatively low QSO rate. A multi-mode contest held in September may be better than June, since propagataion conditions my be better in September?	Ability to make more QSOs over a shorter period.
G4PVM	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Phone is very difficult for 100W station. Contest rate is not so fast so there is time for 12 hour break for single op.	Separate HP and LP sections. DX conditions better in September than in June. Why not have the new contest in September?
G4RCG and M2G	Plan 6	I think your date foir the CW needs to change as the AADX clashed with other contests in EU	Clashes of contests	I prefer the shorter contests, mixed mode CW & SSB may be better
G4TSH	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	Terribly slow contest and plenty of useless times of day	Remove 160m from the contest
GW4EVX	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	48 hours is too long.	I enjoy participating but find it difficult to work many JA stations on SSB.
HA3NU	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	1000 QSO during a 48 hour contest is not so interesting	24 hour format mix mode
HA5BI	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	If the conditions of ether not good, then 48 hours give more chance for good results.	
HA7I	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	48 hours makes the contest too long	
HA9TA	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I cannot spend a longer time - more than 3-4 hours at a time - next to the device. This way I can join the traffic several times. BUT. Due to my asthma problems, I do not participate in phone competitions. I can't modulate the device properly.	
HG5E	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	48h is simply too long for this number of participants from Asia.	
HG9OQ	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	a lot of people cant do 48 hour contest but would be able to do the 24 hour	no

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
HL3AMO	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	48 hours is hard for single OP. OP need a rest time to meet the safety standard.	Mixed mode, like IARU.
HS0ZOK	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	has worked well so far	1. Make your website is not in English so it is easy to navigate. 2. Give online awards.
IK1PMR	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	More realistic	Promote more Asian participation
IK1QBT	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Little time to dedicate	Self-spotting permitted
IK2IKW	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	that's good enough for me.	inform ham JA and UA9/0 of the contest
IK2PFL	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	no/never takers on Sunday	
IK8UND	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	48 hours is too much	No ideas
IU0CNI	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	To make it simpler	None, that's okay
IU2SZF	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Low number of participants	Everybody works everybody
IU3OAR	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	For the convenience of the single operator	
IU4OAY	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	i prefer a long time window	send a phisical QSL
K0MD	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	No specific answer	Better Plaques
K1KI	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	We don't get all that many hours of propagation to Asia so 48 is best	none
K1ZZ	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	24 hours is the standard length for contests	
K2YWE	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	I am unlikely to do phone, the 48 hour period hive more opportunity for QSOs to JA, it is a convenient weekend.	
K3EST	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	MUST KEEP SEPARATE DATES FOR EACH MODE	I PARTICIPATE EVERY YEAR USUALLY MM
K3PA	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	It's fine. If there are issues, please inform us.	US awards by CQ Zone. Low power category.

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
K3WW	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	More time for opening to Asia choice of favorite mode or multi mod.	Sorry, better propagation to eastern USA would be biggest encouragement
K6EI	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	48 hr contests are too long	3rd weekend in June is just one week before Field Day -- a very busy time here.
K6NR	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Works well for IARU and other contests	
K6XX	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	AA fone was a great contest when there was more JA activity (1990s & before). Need more JA stations in the contest!	Zero points Asia to Asia. Or at least zero points within one country. (No JA-JA for points).
K8GL	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Even though I am 73 years old I still do not like limitations on participation times. Being in North America we have limited times to work Asia so we appreciate when stations in Asia are available to us for 36-40-44-or 48 hours rather than being time-restricted.	More JA and Asian activity!
K8IA	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Seems to be lower activity lately	
K8MFO	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Things are fine the way it is. When conditions are poor as they were this year, it was nice to have extra time, hoping for better conition.s	NONE
KL4LJ	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Dedicated cw only contest so I can focus on cw contacts; full 48 hours allows more flexibility for operating	
KL7R	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	CW is my favorite contesting mode.	CW. all asian dx cw is my favorite contest from alaska
LU1BJW	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	as single op Im able to work 20 hours maximum in a weekend.	no new ideas. The contest is a fun
LU9EAE	Plan 6	In ssb another date	Because for the current date the spread is low	
LY2MM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	No need to mix modes. 48 hours format is good for those, who have variable conditions and are far form Japan. Current format suits me.	JARL does a tremendous job, I want to participate in AA DX even in this conditions.
LY5W	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Time wasting	just short to 24 hours, start as other from 12z to 12z
M0GHQ	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Better propagation in September for phone, also other local contests reduce contacts for 12 hours in the middle of the contest, if the contest was only 12 hours the good dx is lost, propagation has been poor in the last few years and the conflicts in RU and UR have affected the numbers competing.	If it did not coincide with the local contest as much

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
M0KIW	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	There are many other contests which use this format and it appears to work well for them	Nothing, I'm happy to compete anyway. However, I do think there needs to be more done to publicise the event(s) (such as banner notices on QRZ.com etc) so that we may attract a broader audience.
MD0CCE/MD2C	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	More convenient	
MW2I	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	convenience	shorten contest from 48 hours
N1CEO	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	I need to sleep. I can't work for 48 hours.	Allow self spotting
N1RR	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	2 CHANCES AT PROPAGATION, 2 CHANCES AT WORKING OPERATORS ON THE OTHER MODE	Consider changing both contests to CW Only, SSB, Only, Mixed Mode. Then later, when participation is evaluated, consider whether to drop one contest weekend off the contest calendar.
N1SOH	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I enjoy both modes independently and the dates work for the most part. June is better than September though. I'm not opposed to a 48-hour mixed mode option either.	Point structure modifications to boost participation through higher ask point value Asian contacts, and low value all-continent dx to dx valid contacts for ask points as well.
N2BZD	Plan 6	Move the Phone AADX test to April, run it for 48 hours, no more than 36 hours for single operator entrants.	Better propagation North America to JA, UA9 and far east.	Give 5 points per 40 m, 80 m and 160 m qso Asia to non-Asia; 3 points 20 m, 1 point 15 m & 10 m
N2RC	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Mixed mode categories will bring more activity	I like the mixed mode idea on the same weekend
N3BNA	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Other contests have various modes operating in the same contest	Sometimes there is not much propagation to Asia from NA, especially East Coast and Caribbean. This means that it is a 4-hour contest with exception of a few stations in the Middle East that qualify as Asia.
N3QE	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	There was not enough activity to justify 48 hours in recent years. Some ops have a hard time doing two modes in same weekend.	Club competition awards.
N3RS	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Placing the CW and SSB categories On the same date will reduce participation on each mode since the bands are open only eliminated time here in North America. During this sunspot peak, we are faced with periods of increased absorption, and the likelihood that one of the days will be adversely affected. Thus, reducing the contest period to 24 hours is not advisable. Leave well enough alone.	
N4IJ	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Good opportunity to work Asia if conditions are poor first day	

Callsign		Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?	Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
N6KI	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Not enough participation for SSB in September	
N6RK	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	I cannot operate 48 hours	More activity on 80 meters, especially from zone 22
N6TQ	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Less schedule conflicts but having the contest on one date	Like the current format.
N6TV	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	There are not enough participants for a 48 hour contest. I prefer to operate CW only. If AA Phone was on the same weekend in June, I think it would be harder to make CW QSOs.	A shorter contest period, 24 hours instead of 48, would be helpful.
N7DR	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Option #5 would be OK too, but the survey wouldn't let me choose more than one answer. 24 hours is too short... geomagnetic activity might wipe out the short openings if the contest is just 24 hours.	Go back to real certificates. I don't submit logs to contests that don't have real certificates (which is why I'm not entering AA this year).
N7EPD	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Why not give the mixed mode option and allowing only 36 hr?	Get more rarer Asian countries to participate on CW like A4, A6, A9, AP, etc.
N9RV	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	24 hour contest much more family friendly	Can't think of any sorry
NM5M	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	We are all getting older and have less time to participate in 48 hour events.	I like this contest, my participation is usually limited because of other obligations.
OE1WWL	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	less time so more time for the family	digital modes are less loud than phone
OE5TXF	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	48 Hours is too long for a "regional" contest. Reduce it to 24 Hours.	Faster results! A more modern web-site. The AA-Contest website is like something from the early 1990s!
OH2KI	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	There is not activity for 48 h	More JA
OH2KW	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Due to lower activity, 24h is enough. Also Mixed mode in the same date would increase the contacts (even personally I prefer to operate CW-only). The biggest problem is the low amount of JA stations. In 1990 I worked 1200 JA station on 21MHz single SSB and 900 JA stations 21 MHz single CW (I was OH7BUQ and it was 1st in EU positions and that time records). Do you still keep old results? It would be nice to get 1989 and 1990 results (I have lost them)	CW-only and SSB-only and Mixed mode in the same weekend and 24h..
OH5JT	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	24 hours would be better for many person.	To have clear rules for CW, SSB and other bands.

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
OK2QA	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	less stress	contesting is fun
OK4T	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Nice term between big contests (WPX, IARU HF) and good CONDX to Asia	NIL
ON5WL	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	48 hours is too long for older operators. I am 80 years old.	If everyone could work everyone we could make much more qso also during the time that we have no propagation with Asia.
OZ2I	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Age	
OZ3SM	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Family Considerations	24 hours and start 12 UTC
PG1R	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Just a good feeling	No explicit reason
PV2K	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	works fine	It would be better if it were a global contest and with different scores for those who work on Asian stations, there would be more activity
PY1VOY	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	More dedication in one specific weekend. 48 hours provide more possible openings to Asia.	Extra points for QSOs between Asia and SA.
PY1XR	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	It's more simple and economical	Asia is a continent of good DX
PY2KJ	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Better to be in a contest with more stations and more possibilities	You have to start to count contacts to every station and not only asian stations. This is the MAIN problem. For example, if you change points counting to: ASIAN STATION: 10 points and multiplier, Other continents: 5 points, Same continent: 3 points, Same country: 1 point. Every DXCC count as multiplier, too. Something like this,=. It will be better for all operators. More possibility to be on radio making contacts and not only calling CQ and nothing return.
PY2PLL	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	I guess making phone, cw and mixed all together can help to increase the amount of stations heard here at the other side of the world and left a weekend free for other contests.	It's a personal demand: I need to install better antennas to improve worldwide coverage. Most of the time I enter at QRP categories if they exist, otherwise low power. My home is surrounded by hills nearby and I'm installing a tower and a quad for 10 15 20. Today I have only wire antennas. As I said, it's a personal demand.

Callsign		Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?	Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
PY2UDB	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	because of time-zone differences, the contest needs to have a longer duration, in order to create opportunities to all participants to participate (and having propagation windows covered)	stimulate participation from all Asian countries
PY2ZEA	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	24 h is better than 48 h. leaving more time for other activities in the middle of the beautiful summer holidays in Europe.	Same as Q2: More time for family activities. Our XYLs and childrens will be happy!
PY4XX	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Because in mixed contests, the majority goes to SSB and leaves the CW bands emptier.	
R0CY	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Convenient timing for me.	-
R0SBI	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	stations will be more active	
R3AQ	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	two days without rest is difficult	
R3LCV	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	I'm so comfortable	I try to participate when I'm available
R8TT	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Very few stations	Postpone the contest to the winter, since in the summer everyone is on vacation and there is a lot of thunderstorm interference. There are practically no stations at 80-160 meters.
R9LM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Forever I get to participate on the first day of the competition, I am happy to participate on the second day or vice versa	
R9RA	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Age	
RA0FF	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	24h contest is best	More Cups, plaques for winners
RA0LQ	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	To increase activities.	
RA3TT	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	It's difficult for me to spend 48 hours in a contest. I have a lot of other things to do.	
RA4NCC	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	low activity	
RA9DZ	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Currently, operators are old and working 48 hours is very difficult.	
RA9MX	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Very long but not many calls outside Asia	

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
RD8D	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	48 for singl op long time	
RM9I	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Working for 48 hours without a break is dangerous for the body. Taking into account the age of the majority of participants, this factor triples. Due to the insufficient number of participants, it would be wise to combine CW adn SSB test.	Using modern judging methods (WPX Contest example). Creation of a modern contest website. Formation and publication of declared results upon completion of receiving reports. Mandatory publication of participants' logs, sending UBN files to participants upon completion of judging.
RN6L	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	The number of participants is small, especially from Asia, so 24 hours is quite enough, if more, then the pace to the end of the contest is very low.	
RV9UP	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	The average age of participants is rising up. Interruptions are needed to care about the helth.	Time to rest out of operation.
RW1A	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	36 or 24 hours June CW/SSB together more points for SSB * 2 and differnt mult.	NEW SITE for AA contest, like cqww.com, sertificate for 100qso and more , all record , sending plaque , special diplom. in reg JA, UA9-0 , BY , HS, (reg A4,A7.A6,9K) special people who increase activity.
RW1F	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	very little participants from ASIA	
RW3YB	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I am satisfied with the current situation.	I have no ideas.
RW9AV	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I work only with CW, so I think CW and SSB should be separate competitions.	
RY6Y	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	low activity	It have to be 24 hours contest. Reactivate popularisation of the contest among Asiatic HAMs. Now is too low activity.
S56C	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	more participation	
SC7DX - SM7GIB	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	No problem with the rules	
SJ6R	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Compared to my initial participations in 1980-1980, the amount of Asian stations unfortunately has been reduced. A 24 hour CW, SSB or mixed would be more interesting.	More Asians, better marketing in JA, BY, UA9/0 and other large areas.
SM5CSS	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	I also want to be social to my family and my friends during the weekends	Sri, I have no idea

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
SM5KQS	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	only a few contacts, shorted operating time is fine	
SP3WKW	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	48 hours is to long due to family work reason 24 hours is ok	Certificates for all participants.
SP4Z	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	no so much activity nad consider the time acorded to JA loacal time at the end of the day on Sunday	It depends on propagation on higher bands, more add to contesters
SQ9FMU	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	A convenient date and time for me	I almost always participate
T88PB	Plan 6	<p>海外にてコンテスト参加するには、24時間の運用では短く、電信・電話を目的に6月と9月に二回出かけて運用するのは負担が大きいです。それで、以下を提案します。</p> <p>1) 開催日は6月第3週の、今の電信コンテストの期間・時間帯とし、</p> <p>2) 前半の24時間は電信コンテスト、後半の24時間は電話コンテストとする</p>	<p>分ける理由を述べます。</p> <p>1) 国内コンテスト同様に「電信部門、電話部門、電信・電話部門と分ける」と、それぞれの部門の参加局は減ってしまい、その状態で48時間を継続して運用するのはしんどいです。</p> <p>36時間制の場合も、交信相手を見つけるチャンスは減ります。</p> <p>2) CQWWやARRLのような著名なコンテストは「電信」と「電話」を別コンテスト扱いで開催しており、開催期間中の参加への集中度・意欲レベルが違います。こういう方式の方が、コンテストに格の高さを感じられます。オールアジアコンテストを、1国対全世界方式のマイナーコンテストに引き下げるのは賛成しかねます。(オールアジアは、参加者数の多い格調のあるコンテストと感じています) 電信チャンピオンと電話チャンピオンを別途に決める形式は継続して欲しいです。</p> <p>3) ハムの平均年齢が上がりつつあり、長時間参加方式よりは短期集中的に運用できるのがありがたい。多くのコンテスターが、「或る一定間、ハイ密度で交信が次々行われる'高密度・高濃度な時間進行状態'を期待して参加している」かと思います。</p>	<p>各大陸のチャンピオンには、小さくても良いから盾を発行して欲しい。(オセアニアコンテストは、クラブや個人のドネーションでこれを行っており、私もドネを行っても良い=すべての盾の費用担当までは無理ですが)</p> <p>※チャンピオンはオールバンド参加局から、の意味ではありません。シングルバンド参加局が一番点数が高ければ、その局が該当となる。</p>
TA3EP	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	All CW and Phone contesters can participate in same day. It means more contesters.	
UA0C	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	The difficulty of working 48 hours in a group of "One operator"	
UA0DM	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	not enough correspondents	I always take part in these competitions because it's like the Asian Championship for me and I'm always glad to hear from my friends from other countries, especially from Japan
UA4LCH	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Too few stations are participating.	<p>When a rare station is on the air, crowds of Japanese stations call for it, but in competitions there are very few of them. It is necessary to somehow attract to the competitions those who do not take part in them.</p> <p>This all applies to the same extent to Russian Asian stations.</p> <p>Perhaps some prizes will increase the level of participation?</p>

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
UA9BA	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	24 hour format makes the contest more intense = more fun (higher rates, tactics become vital for the score). Combining phone and cw with mixed attracts more participants = more fun.	i could be seriously involved in AADXC if you had a separate entry for limited gear stations (few antennas, small piece of land available for building the antennas/station) like they have in other big ones. A "CLASSIC ENTRY" with 1(ONE) radio and no TXing when RXing would be ideal for me.
UA9LAO	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	In recent years, the number of participants has decreased significantly.	Expand the award paraphernalia: medals, plaques, pennants, ...
UA9QCQ	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Time is changing, 48-hour contests are causing more and more rejection. The mix contest will be more dynamic.	for stations in Asia, count QSOs with their own continent.
UB7K	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	Slow activity	Quick summary
UF5A	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	The date will remain the same, but the period will be reduced to 24 hours.	Allow work with all correspondents but with a separate offset
UN6LN	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Easier	
US5VX	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	time suits me	category QRP-one-band-cw
UX3IT	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	No	No
VA3TNM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I am in Ontario, Canada and I have a difficult path to JA and even more to South Asian stations. I do not operate for long hours, but I like the fact that I have two days to work with Asia depending on the band conditions.	Give 2 points to DX working Asian stations on 20m and up and 3 points for 160m and 80m. I have almost no chance reaching Asia on 160/80m.
VE3KG	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Propagation to Japan from this area is limited to only a few hours each day. I would like to concentrate my effort into one day.	I only operate for a few hours in the AA contest.. a shorter contest may concentrate activity and make the contest more attractive to me.
VE5MX	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	I like the idea of a 48 hour mixed mode contest. Would keep a unique aspect	Two seperate 48 hour events is demanding on my schedule. One event makes it more of a "must do"
VK2CZ (VJ2J)	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	This allows best flexibility, as I only operate Phone. 24 hours is similar to the Oceania Contest, and that gives everyone some free time on the weekend.	Keep scoring points the SAME for CW contacts and Phone contacts.. Other contests penalise phone operators with lower points.
VK2GR	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	48 hours it too long. 36 hours is possible	I plan to participate in all CW contests and only phone contests when I have free time

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
VK3IU	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	shorter period and all modes on same day is more attractive	not many Asian station are workable from VK3
VK7GN	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	I like mixed mode contests and 48 hours is too long for me	I like change to mixed mode weekend I can still just do cw or phone if I choose
VR2VRC	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	Increase the pace of the contest and when the contest combines CW and SSB, most operators will choose to operate CW only, making SSB fewer people participate, it more difficult for operators of new join HAM radio to get involved in the contest.	For example, communication distance is used as a scoring method. For example: 1 point for 500 kilometers and increase the qualifying points for the WRTC competition to attract more EU & USA stations to participate.
VR2ZQZ	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	cnservative	
VU2ABS	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	More pragmatic, to have it for 24 hours.	Nothing specific
VU2CDP	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Young Asian ops cannot give more time and should get the opportunity to balance radio time with work and family	
VU2DED	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Gives opportunity to work on different dates if some one busy in June at least can work in September. Also the propogation is different on different dates.	Plaque for more categories and may be to runnerup in the category.
VU2JOS	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	We get more time to operate	More publicity needed
VU2MUD	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	It should increase participation as each operator can plan one weekend in the year	
VU2TMP	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	It is just like test cricket moves to 20-20	Geographic Focus - worldwide
VU3NPI	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	It has participants from across different continent and propogations are different at different periods. 48 hours period is good to cover most of the propogations	Digital certificates for all participants with out fees. Digital award certificates for award winners also free for download. Physical award to be paid. Some can be sponsored awards.
W0IZ	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I don't see a reason to change dates or go 36 hours.	It is a fun contest, I like it.
W2UP	Plan 6	Have a Low Power category for non-Asian stations (this is why I don't operate this contest)	See answer to Q1	See answer to Q1
W2VJN	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	24 hours will get more participation	see above

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
W3LL	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	I like phone only not mixed. No endurance for 48 hours and 24 hours required endurance. 36 hours during 48 hours is less tiring	None
W6ZL	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Contest is too long	
W7AUM	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	I am open to any changes you make.	
W8FJ	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	I like it the way it is	I like it the way it is
W8TOM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	WORKS FOR MT SCHEDULE	
W9TCV	Plan 6	Hold all three modes (SSB, CW, Digi) at the same time, on the same date. Allow single op stations (mixed and single mode) to operate 36 of the 48 hours.	Allowing simultaneous participation in all modes will attract more operators. It will also reduce the administrative burdens of running the contest more than once a year.	More dedicated "special stations" in Asian countries with bonus points for DX operators to work.
WA8MDC	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Can operate 48 hours	
WG3J	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	As most of us are aging 48 contests are becoming more difficult for many a 24 contest should encourage more participation	Higher multiplier points for low band contacts
WN8Y	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	As for myself 24 hours is long enough.	I love the idea of having a contest, my results are low in the number of QSOs but satisfaction is high in my excitement. We may be slow but satisfaction is High. Hope that make some sense. THANK You for allowing me to express my opinion and your consideration to query testers as to their likes and dislikes in participation.
XE1AY	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Because it is not easy to be awake 2 nights	Besides the diploma a little original gift from Japan
XE2S	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	For me it is more fun working one mode at a time, dont like been switching modes.	
XU7AKM	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	It is better to do the contest in different categories	No idea. AADX Contest is good now.
XV9G	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	no	All ok
XV9R	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	because	

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
YB0ECT	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	MANY HAM OPR AGE OVER 50 YEARS OLD	SINGLE OPR REDUCE TO 36 HOURS IN CONTEST IS GOOD ENOUGH
YB1RDH	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	There are many options for contesters and time efficiency	Certificate is awarded to all participants. It's not only for top rank but also to all who has participated in the contest
YB1RYX	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	long time	24 hour for CW or Phone only no mix
YB8CMT	Plan 4	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.	Too long a time makes the contest tired, besides there are other tasks to be done	AA Dx Contest is preferred because it no longer needs to use UDC settings
YC0BDB	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	To give a chance every participant to make more QSO due to bad propagation	Would be appreciated if every participant could collect the certificate of participation.
YC0SJA	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	Not all radio amateurs communicate in CW mode. So, they can choose an alternative in Phone mode.	Everyone who participates in the JARL contest is required to get a certificate as proof of participating in the event. So, not only the winner gets a certificate. Because, there are several contestants who take part in it, as a means of participation. I took part in the JARL contest in 2023, didn't win and sadly didn't get proof of being a participant in the event.
YC1CBY	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	already accustomed	something of a challenge
YC2VOC	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	I think 24 hours is enough	Plaque
YC3CZV	Plan 1	No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)	None	Nothing is still in accordance with the rules
YC4RWH	Plan 5	CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.	Contester have lot time to available to our time... long time contest is better	every participant get Certificate award
YC5NBY	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	all qso	all contestant give to certificate participation

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
YD3BWK	Plan 6	<p>Increase the number of winners with categories, it can be countries.</p> <p>The time should not be long until 48 hours, nowadays who wants to participate in 48 hours?</p> <p>The contest time can be 48 hours, but only 1 hour, 3 hours, 6 hours, 12 hours.</p> <p>Playing radio is just a hobby, Hobbies are fun.</p> <p>Contests can be stressful if you play for too long.</p>	<p>Even if you participate in 48 hours, the most that can really be onair is only a few hours, other hours are empty No qso.</p> <p>Contest only in free time.</p>	<p>Don't be stingy in giving certificates to contesters, If only the champion gets a certificate, it's better not to participate. Why participate if it's just a waste of time and you don't get anything.</p>
YD9MBM	Plan 1	<p>No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)</p>	<p>So far, that is the good time</p>	<p>Good contest and I can get more stations</p>
YE1BMZ	Plan 5	<p>CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates for 48 hours on the third weekend in June, and Single Operator stations may operate 36 of the 48 hours.</p>	<p>Contester have several choices</p>	<p>Downloadable certicate for all participants</p>
YE9BJM	Plan 2	<p>The date will remain the same, but the period will be reduced to 24 hours.</p>	<p>48 hours is too hard on my body and do not really get that many more contacts compared to 24 or 30 hours.</p>	<p>30 hour contest with maximum single operator time of 24 hours</p>
YF7RDM	Plan 3	<p>The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.</p>	<p>Single operators can have a choice in the timing of their operations in the contest, making the contest more flexible to their needs and attractive to potential participants</p>	<p>Are you also considering the "8-hours" operating category for single operators? It might also increase the interest of potential participants.</p>
YO2IS	Plan 4	<p>CW-Only, Phone-Only, and Mixed-Mode categories will be held on the same dates on the third weekend in June, reducing the period of the contest to 24 hours.</p>	<p>most hams get older</p>	<p>certificates that validate my contest efort</p>
YO3HEX/YP3X	Plan 2	<p>The date will remain the same, but the period will be reduced to 24 hours.</p>	<p>Because ... 48h is a little bit too much for a contest that is not that popular for example in EU because there are a lot of HAMs for which is not easy to reach asia because of the modest equipmet (me included - a heaxbeam for 20 15 10 and a vertical for 40 and 80)</p>	
YO8AXP	Plan 1	<p>No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)</p>	<p>In my opinion, this competition, AA, has a subtle philosophy and deserves to continue with the same rules of conduct...</p> <p>If AA phone has lower participation, it can't be due to regulation but only participant choices...</p> <p>The current rulebook provides ample space and time for experimentation and competitive traffic.</p>	<p>As for me, I didn't feel the need to have an additional reason to continue participating in this competition (in the CW editions), which I feel integrated into my soul, since my first and modest participation in the year 1973, when I had the call YO4AXP...</p> <p>I only made three QSOs, but this one is deeply etched in my memory...</p> <p>On that occasion I also contacted the first station in JAPAN, namely JA1NPV...</p>
YT1XC	Plan 2	<p>The date will remain the same, but the period will be reduced to 24 hours.</p>	<p>HAM man is old!</p>	<p>Numbers of competitors.</p>
YU1RA	Plan 1	<p>No change (As it is now. Contest period: 48 hours; CW: 3rd weekend in June; Phone: 1st weekend in September)</p>	<p>it`s ok</p>	<p>no ideas</p>

Callsign	Q1. Which of the following proposed rule amendments regarding the dates and duration of AADX contest do you support?		Q2. Please describe Reasons for selecting the answer of Q1.	Q3. Please describe any ideas that would make you want to participate more in the All Asian DX Contest.
ZL3IO	Plan 2	The date will remain the same, but the period will be reduced to 24 hours.	There is not enough activity from Japan for 48 hours of activity	
ZL3PAH	Plan 3	The date will remain the same, but Single Operator stations may operate 36 of the 48 hours.	48 hrs too long for me	RTTY category
